

How to find out more

The Ordnance Survey provides educational material for anyone wishing to get started with GIS and you can visit the GIS zone at <http://mapzone.ordnancesurvey.co.uk/mapzone/giszone.html> and the OS GIS files at <http://www.ordnancesurvey.co.uk/oswebsite/gisfiles/>

Go-Geo! The place to discover geospatial information and services for those in education and research is at <http://www.gogeo.ac.uk/>

Introduction to GIS for teachers www.ordnancesurvey.co.uk/education/pdf/teachgis.pdf and <http://www.ordnancesurvey.co.uk/oswebsite/education/>

For information on GIS software available to UK schools click on the link below

<http://www.ordnancesurvey.co.uk/oswebsite/education/mappingnews/previouseditions/32/p38.pdf>

For lessons in GIS and other geospatial technologies visit the United States Geological Survey pages at <http://education.usgs.gov/common/lessons/gis.html> <http://education.usgs.gov/>

<http://rockyweb.cr.usgs.gov/outreach/articles.html>

<http://erg.usgs.gov/isb/pubs/teachers-packets/mapadventures/index.html>

And the Royal Geographical Society's pages at <http://www.gis.rgs.org/classroomexemplar.html>

Teachers!

If you would like to visit the Geography Department at Bath Spa University with your Year 12 students to find out more about studying GIS and / or Geography at university, or if you would like us to visit your school, please contact us at e.edwards@bathsp.ac.uk to arrange a visit
